There are only 3 valid entries for injury code boxes 14, 15 and 16:

1. three dashes (-) meaning “does not apply” because no injury occurred.
2. three X’s meaning that an injury did occur but its complete nature is “unknown”.
3. three numeric injury codes which individually reflect the LOCATION OF MOST SEVERE PHYSICAL COMPLAINT, the TYPE OF PHYSICAL COMPLAINT and the VICTIM’S PHYSICAL AND EMOTIONAL STATUS.

The injury codes in column 14, the LOCATION OF MOST SEVERE PHYSICAL COMPLAINT, are self-explanatory. Definitions of the injury codes for columns 15 and 16 are as follows:

TRUCK/BUS CLASSIFICATION

The table below gives the codes that should be entered on the MV-104A (Police Accident Report) in the box (Vehicle Type). These codes apply to all buses except school buses, and to all trucks except pick-up trucks.

For example, an accident-involved vehicle that is a flat-bed truck with two axles on the tractor and two on the trailer would be coded G3; a New York City transit authority bus would be coded A.

We also request that the investigating officer provide the following information about cargo in the "Accident Description/Officer Notes" section, where applicable.

Was vehicle authorized: and/or labeled to transport:

1. to be oversize (height and/or width load)
2. to carry an overweight load?
3. flammable/explosive materials?
4. poisonous/corrosive materials?
5. radioactive materials?
6. other hazardous cargo (explain?)
