Section 1 DEALER PLATE ISSUANCE PROGRAM

1.1 OVERVIEW

As a dealer registered by the New York State Department of Motor Vehicles, you might be eligible to participate in the Dealer Plate Issuance Program. The program enables dealers, when appropriate, to issue permanent registration plates and/or interstate In-transit Permits.

1.2 ELIGIBILITY

To purchase registration plates and/or In-transit Permits:

- you must be a registered retail dealer of passenger vehicles, commercial vehicles, motorcycles or trailers for at least one year. (Note: The Commissioner may waive the one-year waiting period for a dealer adding another dealership, if the persons operating the business have a history of satisfactory participation in the dealer plate program within the last five years, or for a newly licensed dealer who sells new vehicles. However, all other requirements must be met.)
- dealers must not have an expired, suspended or revoked dealer's business certificate (MV-61P).
- dealer must be in "good standing" with the DMV; that is, no violations in the last 12 months, no open or pending investigations or hearings, and no unpaid civil penalties, restitution or judgments.
- dealer must have a minimum of 25 retail sales per year. However, the minimum of 25 annual retail sales does not apply to new motor vehicle dealers who have posted the required \$50,000 bond.
- dealer must have a secure location for plates/In-transit Permits, which must be locked when not in use.
- dealer must have an approved log for the plates/In-transit Permits.
- dealer must be approved by a Vehicle Safety investigation of, but not limited to, the facility, its records and supplies.

1.3 RESTRICTIONS

Dealers may **not**:

- **exchange** any plates or In-transit Permits in their possession for those of another dealer, or **borrow** plates or permits which have been issued to another dealer for any reason.
- **interchange** any plates or In-transit Permits within their own dealership sublets.
- issue registration plates or an In-transit Permit for a vehicle that is classified as wholesale or junk, when the title is branded "STOLEN VEHICLE INSURANCE TRANSFER ONLY", when the title is in the insurance company name, when the title is branded as "rebuilt flood", or when garagemen's lien papers are the supporting ownership documents.
- refuse to transfer registration plates for a person who has another registered vehicle, and the registration of such vehicle is eligible for transfer to the purchased vehicle. This includes plates that have been stored at a Motor Vehicles office. (This restriction is in accordance with Section 420 of the Vehicle and Traffic Law and Part 78.20 of the Regulations of the Commissioner of Motor Vehicles.)
- issue registration plates or an interstate In-transit Permit to a person to whom you have not sold a vehicle. However, a dealer may issue plates for a courtesy delivery.
- apply for a Title Only for a customer, once plates and/or a temporary registration have been issued for a vehicle. If the vehicle is subsequently stolen or destroyed, or if you are unable to obtain the proper documentation necessary for issuance of the permit or registration, contact the Central Dealer Unit at (518) 473-8889.

1.4 HOW TO APPLY

To join the program, complete an Application for Dealer Plate Issuance Program, MV-463 (see example B.2). You may participate to purchase registration plates only, In-transit Permits only, or both. A copy of your application will be forwarded to DMV's Division of Vehicle Safety Services for investigation. Allow four weeks for processing. Send your application to:

1.6 DEALER DISHONORED CHECK PROCEDURE/PENALTIES

Section 202-b of the Vehicle and Traffic Law requires us to impose a \$35 penalty fee for each check dishonored by a bank. This penalty fee will be in addition to the amount of the dishonored check.

The following is a summary of the steps and measures we will take when we are notified that a bank did not honor a check:

1. we will send a letter to the dealership requesting payment for the full amount that is due.
2. payment in the form of certified funds must be made within 10 days of the initial contact. It should be sent to us by express or certified mail, or by courier.

3. if you do not respond to this request, your dealer registration will be suspended by the Division of Vehicle Safety Services until you make restitution. In addition, the department's Revenue Accounting Unit may notify your customers that your dealership has issued a dishonored check, and that their individual vehicle registrations/permits will be suspended as a result.
4. the Department of Motor Vehicles will not accept a dealer's check from a dealer who fails to make restitution for a dishonored check. Payment must be made with certified funds or with a check from the dealer's customer.

1.7 VIOLATIONS

Any violation of sections 415, 417 and 420 of the Vehicle and Traffic Law, and of the Regulations of the Commissioner of Motor Vehicles, may result in withdrawal of approval to issue temporary registrations, registration plates and In-transit Permits. A violation may also result in action being taken against your business registration.

Failure to account for all security dealer supplies, that is, license plates, In-transit Permits, certificates of sale (MV-50) and temporary certificates of registration (MV- TCR), may result in withdrawal of approval to issue temporary registrations, registration plates and In-transit Permits.

Section 2 REGISTRATION PLATE/PERMIT INVENTORIES

2.1 ORDERING

- Ordering **standard plates and In-transit Permits** - complete the Order Form for Registration Plates/ In-Transit Permits, MV-464L (see example B.4).
- Ordering **custom plates** - contact Custom Plates at 1-518-402-4838.

Registration Plates - on the order form, specify the number of boxes you will need for no more than three months (**not to exceed four boxes**). The fee for four boxes (100 sets of plates) is \$500. A minimum order of plates is one box (25 sets of plates) for a fee of \$125.

In-Transit Permits - on the order form, specify the number of packages you will need for no more than three months. A minimum order of permits is one package (25 permits) for a fee of \$312.50. The maximum order should **not exceed four packages** (100 permits) for a fee of \$1250.

2.2 DELIVERY

The Department of Motor Vehicles will ship boxes of plates and packages of permits to the dealer's place of business at no cost to the dealer. DMV will pay the shipping costs. **DO NOT OPEN ANY BOX OF PLATES OR PACKAGE OF PERMITS UNTIL YOU HAVE CONFIRMED THE SHIPMENT AND ARE READY TO ISSUE THEM.**

2.3 CONFIRMATION OF SHIPMENT

The same confirmation of shipment procedure is used for registration plates and for permits. At the time the plates and permits are shipped, the department will also mail a confirmation of shipment letter to the dealer, under separate cover.

In-transit permits - when you receive the shipment confirmation letter, compare the information in the letter with the permit numbers for each package of permits (see example letter B.5). **DO NOT OPEN THE PACKAGE(S) TO VERIFY THE PERMITS.**

Registration plates - a confirmation letter will be sent for each shipment. For example, if you order 100 sets of plates, you will receive four boxes (25 sets of plates to a box) and a shipment confirmation letter (see example letter B.5.1). Motorcycles and trailers use single plates, and are also shipped 25 plates to a box. When you receive the confirmation letter, compare the information in the letter to the plate number stamped on the end flap of each box of plates. **DO NOT OPEN THE BOX(ES) TO VERIFY THE PLATES.**

Each shipment confirmation letter will contain the following information:

- dealer's name and address
- dealer's facility ID number
- dealer's plate limit
- registration plates
 - ◆ number of boxes shipped (maximum 4 boxes)
 - ◆ plate sequence for each of the boxes (Example: 5VA100 - 5VA124)
- In-transit Permits
 - ◆ number of packages shipped (maximum 4 packages)
 - ◆ permit sequence for each package (Example: AAA1000 - AAA1024)
- control number assigned to each shipment
- the dollar amount of the shipment

On the bottom half of the confirmation letter, write the number of boxes/packages you received. Compare the plate/permit sequence of each box/package you received to the plate/permit sequence shown as being shipped. Where indicated, write the plate/permit sequence of any missing boxes/packages.

When you have compared the boxes/packages of plates/permits shipped to you with the confirmation letter, please tear-off the bottom half of the letter and return it immediately* in the envelope provided. The envelope is not postage paid. Please place postage on it.

KEEP THE TOP HALF OF THE CONFIRMATION LETTER FOR AUDIT PURPOSES.

Missing boxes/packages - we can begin a tracing process one week after the confirmation letter is received. If the missing box/package is found, it will be shipped to you. If the missing box/package cannot be located, we must have confirmation from the delivery service that there is no record of delivery before we can send a replacement box/package to you. If you eventually receive the missing box/package, call the Dealer Plate Issuance Unit at (518) 473-8889 for further instructions. **DO NOT USE THESE PLATES/PERMITS BECAUSE THEY WILL NOT BE PROCESSED BY DMV IF ISSUED AFTER THEY WERE REPORTED MISSING.**

* The Regulations of the Commissioner of Motor Vehicles require that the confirmation letter be returned to the Dealer Plate Issuance Unit immediately following the arrival of the plates/permits.

2.4 INVENTORY CONTROL

2.4.1 ISSUING PROCEDURES

Once you have confirmed your shipment of plates/permits, **DO NOT OPEN THE BOX(ES) UNTIL YOU ARE READY TO ISSUE THE PLATES.** Boxes of plates must be kept sealed until opened for issuance. Boxes of plates (sealed or opened), and packages of permits, must be kept in a secure, locked and limited-access location.

ISSUE PLATES/PERMITS IN SEQUENTIAL ORDER

You must issue plates/permits in sequential order. Consider the following example where a shipment consists of three boxes of twenty-five plate sets each:

- box one contains plate sequence A100BC - A124BC
- box two contains plate sequence A125BC - A149BC
- box three contains plate sequence A150BC - A174BC

Box one contains the lowest sequence, so it must be the first box opened after you have confirmed the shipment and are ready to issue. Do not issue plates from box one out of sequence. Do not open, or issue any plates from, the next box until you have issued all of the plates in box one, and so on. Follow this same procedure for packages of permits.

When you first open a box of plates, examine all the plates in that box and verify the plate numbers with the confirmation letter. If there are any single plates, plates mixed in a set, missing entirely or mutilated, you must immediately notify DMV in writing using your business letterhead. Send the letter, along with any mutilated, mixed or remaining plates of an incomplete set, to the Dealer Plate Issuance Unit. Follow this same procedure for packages of permits.

Once we have received your notification and any plates/permits, we will ship replacement plates/permits to you at no charge.

2.4.2 INVENTORY RECORDS

Once you start issuing plates through the Plate Issuance Program, you must keep the following records:

1. the top half of the Shipment Confirmation Letter;
2. record the following information in your Book of Registry, in a separate bound book, or in a DMV-approved computer file:
 - the beginning and ending plate number for each box of plates and/or package of permits that we ship to you.
 - the beginning and ending plate number of each box of plates and/or package of permits missing from the shipment you receive.
 - the beginning and ending plate number of each box of plates and/or package of permits we send to you to replace a missing box or package. Once you open a box of plates or package of permits, record the numbers for individual sets of plates and for individual In-transit Permits that you report to the Department of Motor Vehicles as mixed, missing or mutilated.

Most of the information required under the Dealer Plate Issuance Program is already recorded in your Book of Registry. A Plate Issuance Log has been designed to assist you with recording of additional information. You may use the following sample format, or develop your own. The additional information required is:

- Customer Name
- Plate or Permit Number
- MV-50/MV-TCR Number
- Date Issued by Facility
- Date Sent to DMV
- Book of Registry Page Number

*You are NOT required to record TCR numbers in your Plate/Permit Issuance Log for situations where you are transferring plates from one vehicle to another. However, if you choose to record them for convenience, you should enter “NA” in the plate field as shown here. All plates and all permits must be issued in sequential order.

2.5 STOLEN OR LOST PLATES/PERMITS

If you confirm to us that you have received plates or permits, and subsequently discover that any registration or permit number, any box of plates or any package of permits is lost or stolen, you must:

- immediately notify your local police agency of the loss or theft, to obtain a Report of Lost or Stolen Motor Vehicle Items, form MV-78B (see example B.6).
- immediately notify the Dealer Plate Issuance Unit in writing, on your business letterhead, of the loss or theft. Attach a copy of the police report and the **original** of the completed form MV-78B.

Section 3 ISSUING A REGISTRATION PLATE

3.1 DOCUMENTS REQUIRED FOR A PERMANENT REGISTRATION

Before issuing registration plates (or transferring plates from another vehicle) and issuing a Temporary Certificate of Registration (MV-TCR), you **must** have all documents necessary to have a registration and Certificate of Title issued by the department for the vehicle. You cannot issue a permanent registration without the following documents:

- a completed Vehicle Registration/Title Application (MV-82), signed by the registrant (see Section 3.2)
- a retail Certificate of Sale (MV-50), completely filled out and signed (see example B.7).
- proof of ownership (MCO, title or transferable registration). When the title is in the dealership name, the buyer, seller, odometer and salvage information must be completed on the title.
- proof of financial security for the registrant (original or faxed NYS insurance card)
- proof of identity/date of birth (see Section C.5.2)

IMPORTANT: A 15-passenger vehicle is a bus and must be inspected by the New York State Department of Transportation (DOT). If the vehicle must be inspected by the NYS DOT, you may NOT issue or transfer registration plates, or issue a temporary registration, without the required proof of inspection. For more information, see “Inspection Requirements for Carriers Transporting Passengers”, form MV-82.IP (see example B.8), or contact the Division of Vehicle Safety Services.

- for plate transfer only, the current valid registration (a photocopy is acceptable) from the old vehicle from which the plates are being transferred. If the registration is not available, verify that the plates were issued to your customer by calling the Central Dealers phone unit at (518) 473-8889.
- dealers may transfer credit from plates that have been surrendered if the customer has his/her FS-6T.
- supporting documents, when necessary, including:
 - ◆ Partnership or Joint Ownership Statement (MV-83T), when there are more than two owners (see example B.9).
 - ◆ Certificate of Partnership, if the partnership wants to register the vehicle in its business name.
 - ◆ proof of incorporation, if the applicant is not a partnership registering in a business name (see Section C.5.3).
 - ◆ Vehicle Use Tax Exemption Certificate (Form UT-11 for New York City only, or Form UT-11C for counties other than New York City), if the applicant is exempt from this tax (see examples B.10 and B.11).
 - ◆ any other appropriate documents.

For a more detailed explanation of these requirements, please refer to the following pages.

Note: You may not issue a registration if you have already issued an In-transit Permit to the same customer for the same vehicle. If a customer has an ITP to register a vehicle outside New York State, and later decides to register that vehicle in New York State, he/she must visit a Motor Vehicles office in this state.

3.2 COMPLETING THE VEHICLE REGISTRATION/TITLE APPLICATION (MV-82)

Complete an application form (MV-82 sample on pages 9-10), for each customer registering a vehicle in New York State. The MV-82 is available to download from the DMV web site: www.dmv.ny.gov. Instructions are as follows:

Box “1” What Do You Want To Do?: Check any box that applies. For this example, we have checked "Register This Vehicle for the First Time."

Box “2” Registration Information:

A. **Client ID No.:** (from driver license or non-driver ID card) Ask the registrant for his/her driver license or non-driver ID card and enter the Client ID Number. Attach a photocopy of the driver license or non-driver ID card to the MV-82. If a co-registrant is being added to the vehicle, repeat the process of entering the client ID number and photocopying their driver license or non-driver ID. Check the “Yes” or “No” box for Name Change, Address Change and Registration for Corporation, Partnership, as appropriate. Mark the box to indicate how the vehicle was obtained.

B. Name of Registrant: Enter registrant's name by using the last name, first name, and middle initial. The name on the proof of identity (see Sections C.5 - C.5.2) and on the insurance card (see Section C.5.5) must be exactly the same as the name shown for "registrant."

Example: Motorist, Michael, M.

If there are two people registering the vehicle, complete the information as follows:

Example: Motorist, Michael, M.
Motorist, Michelle, M.

C. Date of Birth and Sex of the Registrant: Daytime Phone No. is optional.

D. Address Where You Get Your Mail: Complete using the primary registrant's mailing address.

Example: 555 South Swan Street
Albany NY 12228-0608

Next to the address, fill in the **County** in which the primary registrant lives.

Example: Albany

E. Address Where You Live: Complete this only when the primary registrant has a different mailing address, or when the primary registrant lists a Post Office Box number for his/her street address and wants to use the Post Office Box number as the mailing address. When this address is filled-in, you must also enter the **County** in which the legal address is located.

Box " 3 " **If The Registrant Is Not The Owner:** Complete this box. Include **Owner Client ID No., Name Of Current Owner, Date Of Birth and Mailing Address.** "Owner's Day Phone No." is optional. You must provide proof of identity and date of birth for the owner (see Sections C.5.2 - C.5.3). The Authorization must be signed by the owner (and the same name must be on the MV-50).

Box " 4 " **Vehicle Information:**

A. Vehicle Identification Number: The Vehicle Identification Number is the serial or factory number (not the engine number) that has been permanently assigned to the vehicle by the manufacturer. This number may contain both letters and numbers. Most 1981 and newer vehicles, both U.S. and foreign, have 17 characters in the vehicle identification number. (If fewer than 17 characters are entered, the application may be rejected.) Please note, however, that DMV assigned vehicle identification numbers do not have 17 characters. If a vehicle has a valid DMV assigned vehicle identification number, enter that number on the application.

B. Vehicle Description: Give the specific vehicle information for the vehicle being registered, including **Year, Make, Body Type, and Color**. Refer to the code sheets in Sections C.4.1, C.4.2, and C.4.4, for Make, Body Type, and Color. Write in the unladen weight.

- Although the unladen weight may not be required for fee computation, it is a required entry for the Certificate of Title.
- The **Type of Power** should be one of the following: gas, diesel, electric, CNG (Compressed Natural Gas), Propane, Flex, None or Other.
- A vehicle may have any number of **Cylinders** up to and including 16, with the exception of 15. For vehicles that have rotary engines, or for electric-powered vehicles that do not have cylinders, enter "N" in place of the number of cylinders.
- Both the **Unladen Weight** and **Maximum Gross Weight** of commercial vehicles and trailers must be provided on the MV-82. For-hire vehicles require seating capacity.
- Enter the Odometer Reading when the vehicle was transferred to the customer, as well as the number of places for digits, on the odometer.
- For trailers and commercial vehicles, enter the number of axles, and distance.

NY DEALER ONLY Boxes, top and bottom of Page 1: Complete these boxes as follows:

- answer the question **Did You Issue Plates To This Vehicle?** If **"Yes"**, enter the **Plate Number** you assigned to the registrant.
- enter the **Registration Class** (PAS, COM, MOT, SPO, RGL, OMS, OMV, ORG, LTR and TRL).
- enter the **Date Temp Issued** (insurance coverage must be in effect on or before this date).
- enter your **Facility ID Number**.
- answer the question **Is There A Lienholder?** Answer either **"Yes"** or **"No"**. (**"N/A"** is not acceptable.) If **"Yes"**, enter the **Lienholder Number** and complete the **Lienholder Name** and **Mailing Address**. (**Please note that changes, cross-outs and white-outs in these sections will cause the MV-82 to be rejected.**)

Box " 5 " **CHANGES:** On page 2 of the application, provide information about any **Changes** (name, vehicle information, etc.) that need to be made to DMV records.

Box " 6 " **Additional Vehicle Information:** Carefully read and answer any questions that apply to the vehicle. The **first three questions** must **ALWAYS** be completed. If the answer to the second question is "NO", check the boxes under question 2 that apply. Answer question 4 if the vehicle is a pickup truck weighing 5,000 pounds or less.

Note: If the registration class has been changed as a result of modifying a van, pick-up truck or other vehicle, see Section 3.5.

Box " 7 " **CERTIFICATION:** The registrant must sign the **Certification** section, which states that all information given is true. If the vehicle is being registered under two names, both registrants must sign.

Bottom of Page 2:

A. In the section **To Be Completed By A Registered New York State Dealer Only**, fill in additional lienholder data, if there is more than one lienholder.

B. The dealer (or an individual with Power of Attorney for the dealer) must sign the **Dealer Certification** section, which states that all information given is true.

3.3 ISSUING A TEMPORARY CERTIFICATE OF REGISTRATION (FORM MV-TCR)

A Temporary Certificate of Registration, form MV-TCR (see example B.8), may be issued for any vehicle, regardless of whether or not the dealer issues plates. All registered dealers must include a completed Retail Certificate of Sale, form MV-50, with any paperwork for processing a light-weight trailer registration. If a dealer issues a registration number plate for a vehicle or light-weight trailer, the dealer must issue an MV-TCR (bottom portion).

At the time you place the registration number plates on the vehicle, you must also place the MV-TCR on the inside of the windshield, in the lower left corner, with the front of the Certificate facing out. If the vehicle does not have a windshield (motorcycle or light-weight trailer), give the MV-TCR to the registrant, who must carry it with him/her.

A temporary registration (MV-TCR) is valid for 45 days unless otherwise authorized by the Commissioner of Motor Vehicles. The Commissioner can extend the temporary registration for up to 60 days. If transferring plates, the MV-TCR is valid for 45 days or until the registration expires, whichever comes first. (Only one MV-TCR may be issued by the dealer.)

Reminder: Do not issue an MV-TCR when issuing an In-transit Permit.

3.4 ISSUING PLATES FOR A VEHICLE

Dealers may issue only passenger, commercial, motorcycle, trailer, regional and sports plates, and they **must be issued in sequence**. **If the purchaser has plates from a previously registered vehicle, those plates must be transferred to the new vehicle, if they are the class of plates required for the new vehicle.** If the plates from the old vehicle are not the type required for the new vehicle, the dealer cannot issue or transfer the plates. The plates must be transferred at a Motor Vehicles office. In addition, if a customer does not have both plates (except for motorcycles or trailers) because one plate has been lost or stolen, the dealer cannot issue or transfer plates. The customer must obtain new plates at a Motor Vehicles office. See "Transferring Plates to a Vehicle", Section 3.6, for additional information.

When you have **all the necessary documents**, you may place the registration plates on the vehicle, in accordance with Section 402 of the Vehicle and Traffic Law.

Reminders: An In-transit Permit may not be transferred to any other vehicle.

Motorcycle plates for Limited Use Vehicles (mopeds) cannot be issued. The customer must obtain limited use vehicle plates at a Motor Vehicles office.

3.5 ISSUING PLATES FOR PICK-UPS, VANS AND CABS AND CHASSIS

A customer who uses his/her unmodified pick-up truck as a personal vehicle has the option of registering the vehicle as a passenger vehicle. The vehicle must have an unladen weight of 5,000 pounds, or less, and must not display any advertising. The dealer will issue passenger plates and the customer will pay a commercial class fee. The vehicle body type on the registration will be **PICK**.

If your customer chooses to register his/her pick-up truck in the passenger class, in **Box 6** of the MV-82, he/she must answer "Yes" to question 2 and "Passenger Plates" to question 4.

A pick-up truck which has been modified (see items #1 and #2 under Construction, on page 12), regardless of size, will continue to be issued passenger plates and the customer will pay passenger class fees. The body type on the registration is **SUBN**.

Unmodified trucks weighing 5,001 pounds or more (unladen weight), and vans without rear seats or seat fittings, or vans which have not been modified to make them suitable as living quarters, will continue to be issued commercial plates and the customer will pay commercial class fees. The body type on the registration is **PICK**.

Conversion vans, and vans which a dealer has converted (by installing seats, brackets and windows), are issued passenger plates and the customer pays passenger class fees. The body type on the registration is **SUBN**.

Registration Guidelines

PICK-UP

CONSTRUCTION	CLASS OF REGISTRATION
1. Permanently-installed cap with one or more side windows behind the cab, and equipped with at least one permanently-installed seat (or fittings for seats) and safety belts. Must be at least 48" from the bottom of the horizontal centerline of the camper top to the top of the bed of the vehicle along the entire length.	Passenger
2. Permanently-installed camper unit top with attached camping equipment (that is, stove, beds, etc.), making it suitable as living quarters.	Passenger
3. International Harvester Scout with removable compartment for passengers.	Passenger
4. Box permanently-installed in rear compartment	Commercial
5. Tonneau (canvas) cover alone	Commercial
6. A standard pick-up cab weighing <u>5,000 lbs. or less</u> , unladen weight, with no business advertising and without modifications described in items 1 or 2.	Passenger OR Commercial (at the customer's option)
7. A standard pick-up cab weighing <u>more than 5,000 lbs.</u> unladen weight, without the modifications described in items 1 or 2.	Commercial
8. Crew cab or King cab, without the modifications described in items 1 or 2.	Commercial

VAN

A van is considered a commercial vehicle, and should be issued commercial plates, unless constructed or modified in such a way that would allow it to qualify for a passenger registration.

1. A van with at least one rear side window behind the cab, and at least one seat (or brackets for seats), permanently-installed.	Passenger
2. The interior of the van has been altered or equipped to make it suitable as living quarters (that is, stove, beds, etc.).	Passenger

CAB AND CHASSIS

When registering a vehicle that was manufactured as a cab and chassis and now has a body attached, you must specify on the MV-50 and MV-82 the body type attached to the cab and chassis (for example, "dump", "van", "stake", "flatbed", "pickup"). When adding a body to the cab and chassis, the unladen weight must be increased by the body weight and listed on the MV-50 and MV-82 as the unladen weight. (Both body type and body weight should be specified in a letter from the installer.) When there is no body added to the cab and chassis, the body type is reported as "util" (utility).

3.6 TRANSFERRING PLATES TO A VEHICLE

The dealer **must** allow the customer to transfer the existing registration plates to the new vehicle, in accordance with Section 402 of the Vehicle and Traffic Law, if the dealer has all the necessary documents **and** the following conditions exist:

- the existing plates are the type of plates required for the new vehicle. For example, commercial plates may be transferred to a new vehicle qualifying for commercial plates; passenger plates may **not** be transferred to a motorcycle or to a commercial vehicle. If the vehicle requires another type of plate, issue the correct type of plate from your inventory, if available. Remember to send the original plates to a DMV Issuing Office along with a receipt showing the plates were surrendered. The receipt is needed so that the customer will not have an insurance lapse, and so that credit for the original registration can be applied. Remember also to record the old plate number on the registration application (MV-82).
- the customer must have both plates (except for motorcycles and trailers) to transfer to the new vehicle. If one plate is lost or stolen, the dealer **cannot** transfer the plates. The customer must obtain new plates at a Motor Vehicles office.

Note: You must advise the customer of the option to transfer plates when the conditions are met for transferring plates, as described above.

- If plates are being transferred, and the registration will expire within 60 days:
 - ◆ write "renewal" at the top of the MV-82.
 - ◆ advise the registrant that the vehicle registration will expire within 60 days from the date the temporary registration is issued, and that the Department of Motor Vehicles will renew the registration and collect appropriate fees. **The MV-TCR issued will be valid for only 45 days, or until the current registration expires, whichever comes first.**
- If the registration is expired, or is going to expire in less than 45 days:
 - ◆ advise the registrant to renew the registration for the old vehicle, in person, at a Motor Vehicles office.
 - ◆ the customer must complete an MV-82 and take it, with the appropriate fee, to the Motor Vehicles office.

3.7 EMISSIONS REQUIREMENTS

All model year 1996 and newer passenger cars and light-duty trucks, with a gross vehicle weight rating of 6,000 pounds or less, and having an odometer reading of less than 7,500 miles, must conform to New York's emission standards to be registered in New York. An MCO presented as proof of ownership for a vehicle sold in New York State must meet one of the following categories:

- California-Only Vehicle - the vehicle is manufactured to meet California emissions standards;
- 50-State Vehicle - the vehicle is manufactured to meet both U.S. EPA and California emissions standards, and has been approved for sale in all states, including California.
- Federal Vehicle Certified for Sale in California - the vehicle is manufactured to meet U.S. EPA emissions standards only, and is certified for sale in California.

To determine whether a vehicle can be registered in New York State, refer to the emissions control information label located under the hood of the vehicle. There are labels specific to each category; each label clearly states that the vehicle conforms to U.S. EPA and/or California emissions standards, and whether it is certified for sale in California. You may find additional information on the Manufacturer's Certificate of Origin (MCO) or vehicle invoice window sticker.

If a vehicle is being registered and/or titled in New York for the first time, and one of the following conditions exists, complete the **Certification of Emissions Compliance or Exemption, form MV- 74** (see example B.12):

- the vehicle qualifies for an exemption
- the vehicle complies with New York's emissions standards, but there is no statement on the MCO to indicate compliance; or
- the vehicle complies with New York's emissions standards, but there is no MCO available.

An MV-74 does not have to be completed when the MCO has an emissions statement specifying that the vehicle complies. While a non-conforming vehicle cannot be registered in New York State, it can be titled. However, the title will be branded "NON-COMPLYING NY EMISSIONS."

Section 4 ISSUING AN INTERSTATE IN-TRANSIT PERMIT (MV-639ITP)

4.1 BUYER ELIGIBILITY

A dealer may issue an interstate In-transit Permit (MV-639ITP) from stock purchased through the Dealer Plate Issuance Program, only according to the following guidelines:

1. to qualify, the buyer must state that he/she intends to transport the vehicle so it can be registered outside of New York State (and present all the required documents).
2. the dealer must have sold the vehicle to the buyer.
3. the buyer must not already have a registration or title for the vehicle.
4. a dealer cannot issue more than one In-transit Permit (ITP) to the same buyer and vehicle. If a dealer has already issued one ITP for that buyer and vehicle, the buyer must go to a Motor Vehicles office to apply for a second ITP (a second ITP is issued only in very unusual circumstances).
5. a vehicle sold as "junk" does not qualify for any type of In-transit Permit.
6. if a dealer has already issued an interstate In-transit Permit, the dealer cannot issue registration plates for that buyer for the same vehicle. For example, if the buyer has changed his/her mind about registering the vehicle outside New York State, he/she must go to a Motor Vehicles office.

A dealer may act as the buyer's agent in obtaining an individual intra-state ITP from a Motor Vehicles office (to transport a vehicle so it can be registered in New York State). Under no circumstances may a dealer issue an interstate ITP (MV-639ITP) from stock purchased through the Dealer Plate Issuance Program, for intra-state purposes.

4.2 DOCUMENTS REQUIRED TO ISSUE AN INTERSTATE IN-TRANSIT PERMIT

Before issuing an ITP (MV-639ITP), you **MUST** have all of the following documents:

1. In-Transit Permit/Title Application, MV-82ITP (see Section 4.3), showing that the applicant is requesting the In-transit Permit to transport the vehicle to **register it at a location outside of New York State**. You may not issue an In-transit Permit if the applicant gives you information that he/she intends to use the permit for any other purpose.
2. Retail Certificate of Sale (MV-50) completed and signed. When a dealer sells a motor vehicle to a customer who does not live in NYS, the NYS Tax Department requires the dealer to write, "EXEMPT: OUT OF STATE PURCHASER" across the top of the MV-50 (Retail Certificate of Sale). The In-transit Permit number must be listed in the Plate/Permit Number box.
3. proof of ownership (see Section C.5.1).
4. proof of financial security (insurance). Requirements for people who do not live in NYS are different than for NYS residents (see Section C.5.4).
5. proof of identity/date of birth (see Section C.5.2).
6. supporting documents when necessary, including:
 - ◆ Partnership or Joint Ownership Statement (MV-83T), when there are more than two owners.
 - ◆ Certificate of Partnership, if the partnership wants to register the vehicle in its business name.
 - ◆ proof of Incorporation, if the applicant is not a partnership but is registering the vehicle in a business name.
 - ◆ any other documents that may be appropriate.
7. original pre-numbered tear-strip from the In-transit Permit.
8. photocopy of parts 1 and 2 of the In-transit Permit issued to the customer.

4.3 COMPLETING AN IN-TRANSIT PERMIT/TITLE APPLICATION (MV-82ITP)

You may issue an interstate ITP to a customer who intends to transport the vehicle to register it in a location outside of New York State. If the customer gives any other reason for requesting the permit, you cannot issue an In-transit Permit. You also cannot issue an In-transit Permit to transport the vehicle to register it in New York State.

Complete an application, form MV-82 ITP (see example on the following pages), for each qualified customer you sell a vehicle to who is requesting an interstate ITP. The form is available to download at www.nysdmv.com:

Box “ ① ” What do you want to do? Check “Transport this vehicle to register it at some place outside of New York State”.

Complete the information showing point of origin (**FROM**) and destination (**TO**), including city and state ("This vehicle will be transported"). The point of origin is the city and state where the customer takes possession of the vehicle. The destination is the city and state/province/country where it will be registered.

For example, if the customer picked-up the vehicle at your dealership in Spring Valley, New York and will register it in Scranton, Pennsylvania, the information that should be entered on the MV-82ITP is:

From: Spring Valley, NY

To: Scranton, PA

Box “ ② ” Registrant Information:

A. Enter the **CLIENT ID NO.** from the registrant’s driver license. Ask the applicant for his/her driver license or Non-Driver ID Card, and enter the Client ID number printed on that document. The boxes **NAME CHANGE** and **ADDRESS CHANGE** are not applicable for dealers. Complete the section, **IS THIS REGISTRATION FOR A CORPORATION OR PARTNERSHIP?** Check box "YES" or "NO". If "YES", provide acceptable proof of incorporation as described in Section C.5.3.

B. Complete the **NAME OF REGISTRANT**. Fill in the applicant's name by using the last name, first name, and middle initial. The name on the proof of identity and on the proof of insurance must be **EXACTLY** the same as the name shown for "Applicant" on the MV-82ITP.

Example: Motorist, Michael, M.

If there are two people applying for the permit, then complete the information as follows:

Example: Motorist, Michael, M.

Motorist, Michelle, M.

C. Enter the **DATE OF BIRTH** and **SEX** of the applicant. If there is more than one applicant, you must include the information for the first applicant named on the application.

Note: If there is more than one permit applicant, provide the information only for the first applicant named on the application wherever applicant information is requested.

D. **DAY PHONE NO.** is optional.

E. **ADDRESS WHERE YOU GET YOUR MAIL** - Complete the applicant's mailing address, which must be for a destination outside of New York State. Complete the **CITY** or **TOWN, STATE** and **ZIP CODE**.

Example: 555 Park Place

Atlantic City, NJ 08401

Next to the address, enter the **COUNTY** in which the applicant lives. If the applicant lives outside NYS, enter "OUTS" (for out-of-state).

F. Complete **ADDRESS WHERE YOU LIVE** only when the applicant has a different mailing address, or when the applicant lists a Post Office Box number for his or her street address and wants to leave the Post Office Box number as his or her mailing address. When this address is entered, you must also enter the **COUNTY** in which the legal address is located.

Box “ 3 ” IF THE APPLICANT IS NOT THE OWNER of the vehicle being registered, complete this section.

Enter the **OWNER CLIENT ID NO., NAME OF CURRENT OWNER, DATE OF BIRTH, SEX and MAILING ADDRESS. OWNER'S DAY PHONE NO.** is optional. You must send proof of identity and date of birth for the owner (see Section C.5.2). The “Authorization” must be signed by the owner (the MV-50 must be in the same name as on the authorization).

Box “ 4 ” VEHICLE INFORMATION

A. Complete the VEHICLE IDENTIFICATION NUMBER section as follows:

The Vehicle Identification Number is the serial or factory number (not the engine number) that has been permanently assigned to the vehicle by the manufacturer. The number may contain both alphabetic and numeric characters. Most 1981 and newer vehicles, both US and foreign, have 17 characters in the vehicle identification number (if less than 17 characters are entered for the VIN, the application may be rejected).

B. Complete the entire VEHICLE DESCRIPTION section.

- Refer to the code sheets in Sections C.4. 1, C.4.2 and C.4.4. for **MAKE, BODY TYPE** and **COLOR**.
- Commercial vehicles and trailers require that both the **UNLADEN WEIGHT** and **MAXIMUM GROSS WEIGHT** be listed on the MV-82ITP. For-hire vehicles require an entry for “Seating Capacity” instead of weight. Although the weight may not be required for fee computation, the unladen weight must be entered.
- The **TYPE OF POWER** should be one of the following: gas, diesel, electric, CNG (Compressed Natural Gas), Propane, Flex, none or other.
- A vehicle may have any number of **CYLINDERS** up to and including 16, with the exception of 15. For vehicles that have rotary engines, or for electric-powered vehicles that do not have cylinders (such as trailers), enter "N" in place of the number of cylinders.
- Enter the odometer reading in miles. Enter the number of places for digits on the odometer.
- Enter the number of axles and distance for trailers and commercial vehicles.

Note: The “Mileage Brand” box will be completed by DMV.

Top of Page 1:

Complete the **DEALER ONLY** section by entering the following:

- **PERMIT NUMBER** you assigned to the customer
- **EXPIRATION DATE**
- **DATE ISSUED** (insurance coverage must be in effect on or before this date)
- **FACILITY ID NUMBER**

DO NOT enter any information for the following lien items, unless the individual is going to a DMV office to obtain an In-transit Permit:

- Is there a lienholder?
- Lienholder number
- Lienholder name and mailing address

Reminder: You must contact any lenders to advise them to perfect (legally validate) liens in the state in which the vehicle will be registered.

Box “ **5** ” On page 2 of the application, the section entitled **CHANGES** is not applicable to dealers.

Box “ **6** ” **IMPORTANT INFORMATION ABOUT PROOF OF INSPECTION FOR HEAVY VEHICLES:**
Review the summary of information in this box about vehicle inspection requirements. If the vehicle shown on the application must be inspected by a DMV-certified Heavy Vehicle Inspection Station or by the NYS Department of Transportation, you may NOT issue an In-transit Permit, unless the application is accompanied by proof that the vehicle has passed the required inspection. For more information, see "Inspection Requirements for Carriers Transporting Passengers" (form MV-82.1P), or contact the Division of Vehicle Safety Services.

The **VEHICLE INSPECTION INFORMATION** section is not applicable for issuing an interstate In-transit Permit. The dealer is not required to inspect the vehicle: if it is to be registered out-of-state; or if the address of the purchaser on the MV-50 indicates an out-of-state address. The dealer enters "**O of S**" (for out-of-state) in the inspection box on the MV-50.

Box “ **7** ” The applicant must sign the **CERTIFICATION** section, which states that all information on the application is true.

Bottom of Page 2:

In the section, **TO BE COMPLETED BY A REGISTERED NEW YORK STATE DEALER ONLY**, you must provide the lien information if you are obtaining an intra-state permit through a Motor Vehicles office on behalf of a purchaser. Enter additional lienholder data, if there is more than one lienholder.

Reminder: You are not permitted, under any circumstances, to issue a permit you obtain through the Dealer Plate Issuance Program, if the applicant states that he/she will register the vehicle in New York.

The dealer (or an individual with Power of Attorney for the dealer) must sign the **DEALER CERTIFICATION** section, which states that all information on the application is true.

NOTE: Please do not instruct your customer to return the In-transit Permit when he/she has reached his/her destination. After the customer registers the vehicle out-of-state, he/she can destroy the NYS

In-transit Permit. If he/she returns it to your dealership, please destroy it.

5.3 COMPLETING THE REGISTRATION/IN-TRANSIT PERMIT TRANSMITTAL (MV-465)

When submitting paperwork to the Central Dealer Unit, Registrations and In-transit Permits must be on separate Registration/In-transit Permit Transmittal Forms; one for registrations and one for In-transit Permits (see example B.3). Send all properly completed transmittals, accompanying applications and documents by mail or courier using the procedures described in Section 5.6 of this manual for "State-Operated District Offices."

Reminders when completing the transmittal form (MV-465):

- please TYPE or use BALL POINT PEN. Felt tip pens will not print through the copies.
- do not use a rubber stamp.
- if the dealer DOES have an escrow account, the bottom portion of the transmittal form MUST be completed. If the dealer does not have an escrow account, remove and discard the bottom portion of the transmittal, Dealer Escrow Account Charge Slip.

Complete the upper portion of the transmittal as follows:

- **CHECK NUMBER** - enter your check number, and send a blank check made payable to the "Commissioner of Motor Vehicles". PLEASE WRITE YOUR DEALERSHIP'S FACILITY NUMBER ON YOUR CHECK, ABOVE THE NAME. Individual customer checks, separate money orders, and counter checks are not acceptable. **Because ITPs are pre-paid by the dealer, a check is not required for ITP transmittals.**
- **DEALER NAME, ADDRESS** - enter your dealership's complete name and mailing address.
- **SENT BY** - check the type of mail service you will use to send the items, and a tracking number, if available.
- **FACILITY NUMBER** - enter your dealership's seven digit Facility Identification Number.
- **TRANSMITTAL DATE** - enter the date you are sending in the batch of work.
- **NAME AND TELEPHONE NO. OF DEALER CONTACT PERSON** - enter the name and telephone number of the person in your dealership who will have specific registrant information available, if needed. Please do not enter your courier's name and telephone number.
- **REGISTRATION/IN-TRANSIT PERMIT NUMBER** - enter the registration or permit number for each application you are sending - up to 20 applications per transmittal. If you are sending more than 20 applications at one time, please complete additional transmittals as needed. PLATES, PERMITS, BOATS, and ATVs SHOULD BE ON SEPARATE TRANSMITTALS TO AVOID POSSIBLE DELAYS.

Note: Both the original and yellow copy of the transmittal must be returned to the Department of Motor Vehicles; keep the pink copy of the transmittal for your files. If you have to call us, please have your pink copy available for reference when you phone.

5.4 TELEPHONE SERVICE FOR PROBLEM APPLICATIONS

If, after the application is sent to the Central Dealer Unit, you learn that a customer's license plates or vehicle is lost/stolen, or that a customer is moving to another state, the application can be pulled from the transmittal for immediate processing. You must send another check for the processing of the remaining applications. You may call the following phone number for assistance: (518) 473-8889.

5.5 PREVIOUSLY REJECTED APPLICATIONS

Please follow these guidelines when returning applications that were previously rejected by DMV. Not following the procedure could result in delays in processing the corrected applications.

Note: If we receive an MV-82 without proper supporting documentations, it will be rejected. If a dealer consistently submits paperwork that is rejected, the dealer may be removed from the Dealer Plate Issuance Program.

1. Return the separate Vehicle Registration Rejection Notice, form MV-17D, after corrections have been made. Attach it to the front of **each** application being returned to DMV (see B.13).
2. Use a new transmittal form (separate from any new transactions being sent in), along with a separate check. **Do not** return the yellow copy of the transmittal form originally sent to you with your rejected application(s). Keep the yellow copy for your records. Do not send new applications on the same transmittal: Send new applications separately with another check.
3. Write "**REJECT ENCLOSED**", in RED INK in the lower left corner of the mailing envelope (including an Express Mail envelope).

5.6 WHERE TO SEND DOCUMENTS AND FEES

County Offices - If you now conduct your Motor Vehicles business in a county-operated DMV office, you may continue to do so, following the instructions of that office. You must send your registration and reregistration paperwork for passenger or commercial vehicles, motorcycles and trailers for In-transit Permits to them **within five calendar days after the date** the temporary registration/In-transit Permits were issued.

State-Operated District Offices - If you now conduct your Motor Vehicles business in a state-operated DMV office, you cannot send your registration and reregistration paperwork for passenger or commercial vehicles, motorcycles and trailers to that office. Instead, you must deliver all registrations, reregistrations and In-transit Permit paperwork and fees, by mail or courier service, **within five calendar days of the sale**, to:

Section A APPENDIX A - FEES

A.1 FEES - GENERAL INFORMATION

New York State law requires that most passenger and commercial vehicles weighing 18,000 pounds or less be registered for a two-year period. For dealers in the Plate Issuance Program, this means that most original transactions you process will be two-year registrations.

The following is a list of classes that are in the two-year program:

ARG*	AYG	BOB	CBS	CHC*	CLG	CME	CMH*	COM*	CSP*	EDU	EPW
GSM	HAC*	HAM	JCA	JCL	JSC	JWV	LOC	LUA	MCL	MED	NLM
NYA	NYC	NYS	ORC*	ORG	PAS	PHS	PPH	RGC*	RGL	SOS	SPO
SRF	SRN	STG	SUP	TOW*	USC	USS	VAS	VPL	WUG		

*If the vehicle is in this class and weighs more than 18,000 lbs., a one-year fee will be charged.

Key Points:

1. Use the procedures in the following sections to calculate registration fees for owners of both standard empire and regional picture/sports plates. There is an additional plate fee for owners of regional picture/sports plates. See Section A.3.4 for information about these fees.
 2. At the start of the first year of every two-year registration, the registrant will pay two years of registration fees in advance. The registrant will receive one registration receipt and windshield sticker valid for this two-year period.
 3. Dealers should provide customers with the following information so they can receive any registration credit/refund to which they are entitled:
 - the registrant is eligible for a refund if the registration is for two-years, and if one full year remains on the registration and the plates are surrendered.
 - the registrant is entitled to credit for any unused portion of a registration; that is, customers may transfer plates from one vehicle to another, or turn in their plates, and receive credit which can be applied toward the fee to register a replacement vehicle.
 - transactions for registrants qualifying for credit (FS-6T) from previously surrendered plates can only be done at a Motor Vehicles office.
 - if the registrant is switching from a two-year registration to a one-year registration (for example, from passenger to taxi), there is no refund if the registration is in the second year, and no credit can be given for any remaining portion of the second year. However, if the registrant switches before the end of the first year, he/she can apply for a refund by completing form MV-215, Request for Refund of Fee Paid for Motor Vehicle Registrations and Licenses.
- Note:** Members of the Dealer Plate Issuance Program should issue plates from their dealer inventory to those customers who are first-time registrants only. DO NOT issue plates from your dealer inventory to a customer with any time remaining on the registration - the customer will lose any available credit and will no longer be eligible for a refund.
4. The two-year registration program is not available for motorcycles, trailers and vehicles that require plate stickers or for-hire insurance, or for any vehicles participating in the Permanent Fleet Registration (PFR) program or the International Registration Plan (IRP).
 5. You must collect vehicle use tax for the two-year registration period for registrants residing in the following counties: Albany, Allegany, Broome, Bronx, Cattaraugus, Chautauqua, Chemung, Clinton, Cortland, Dutchess, Erie, Kings, Livingston, Madison, Monroe, Nassau, Niagara, New York, Orleans, Oswego, Putnam, Queens, Rensselaer, Richmond, Schenectady, Schuyler, Steuben, Suffolk, Sullivan, Tioga, Tompkins, Washington, Westchester, Wyoming and Yates. See Section A.6 for more information.

A.2 FEES - DEALER SERVICE

The maximum allowable fee a dealer may charge for preparing the paperwork, is \$75.

Vehicle and Traffic Law section 2125 allows for the following dealer fees:

(c) (1) Special or distinctive plates. Such a dealer may charge a person who purchases a vehicle from such dealer a fee for assisting in obtaining or ordering a special number or distinctive license plate from the Department of Motor Vehicles provided the dealer actually performs the service of filing the application for the plate with the Commissioner of Motor Vehicles. The fee charged by the dealer may not exceed five dollars. (Amended 9/5/01)

(2) Such a dealer may charge a person who purchases a vehicle from such dealer a fee for assisting in securing a registration and/or certificate of title for such vehicle, provided the dealer actually performs the service of filing the application for title and/or registration with the Commissioner of Motor Vehicles or his issuing agent. The fee charged by the dealer may not exceed \$75. Such fee does not include the fee required to be paid to the Department of Motor Vehicles for issuance of the registration or for issuance of a certificate of title, nor shall such fee include the fee charged for the motor vehicle inspection of the vehicle. (Amended 9/2/09)

(d) If a fee is charged by the dealer for assisting in securing a registration and/or title or securing special or distinctive plates, the dealer shall print the following statement and asterisked statement on all copies of the invoice or bill of sale in a type size not smaller than the type size used for other charges on such document: (Amended 9/5/01)

"Dealer's optional fee for processing application for registration and/or certificate of title, and for securing special or distinctive plates (if applicable). THIS IS NOT A DMV FEE. *\$_____ " (Amended 2/11/04)

*The optional dealer registration or title application processing fee (\$75.00 maximum) and special plate processing fee (\$5.00 maximum) are not New York State or Department of Motor Vehicles fees. Unless a lien is being recorded or the dealer issued number plates, the customer may submit their own application for registration and/or certificate of title or for a special or distinctive plate to any motor vehicle issuing office. (Amended 9/2/09)

A.3 REGISTRATION FEES: Passenger and Commercial Vehicles

New York State DMV provides an online calculator for dealer's to compute registration fees. This calculator can be found at <https://harmonia.dmv.state.ny.us/RegfeeCalc/rrorEnterVehInfo.cfm>

A.3.1 ORIGINAL TWO-YEAR REGISTRATIONS

In section A.8 you will find a Registration Fee Schedule for **passenger** vehicles which lists the two-year fee.

Use the fee tables to compute the appropriate amount to charge the customer for the two-year registration period. Take into consideration all other fees that are owed by the customer and the lienholder:

■ Two-Year Fee	See Passenger Registration Fee Schedule (section A.8)
■ Plate Fee	\$25.00 for two plates
■ Title Fee	\$50.00
■ Lien Filing Fee (if applicable)	\$5.00 (for each lien)*
■ Vehicle Use Tax	See Vehicle Use Tax chart (section A.6, page 35)

*In accordance with the Vehicle and Traffic Law Section 2125c, the secured party must pay the fee for filing a notice of security interest. Such fee shall not be charged to the owner in any manner. Therefore, you must subtract \$5.00 from the registration fee charged by DMV when computing the appropriate amount to charge the customer. You may collect the \$5.00 fee from the lending institution.

In section A.9, you will find the Registration Fee Schedule for **commercial** vehicles, which lists the two-year fee for vehicles weighing less than 18,000 pounds. See section A.9.1 if the commercial vehicle weighs 18,000 pounds or more. If it is used exclusively to transport household goods, see section A.9.2. Compute the two-year fee as follows:

- determine the annual fee based on the maximum weight of the vehicle
- multiply the annual fee times 2 to determine the two-year fee
- round to the nearest quarter
- add any special charges (use tax, custom plate fee, plate fee, title fee, lien filing fee)
- add all fees together to determine the total fee.

The following examples of registration transactions may be helpful in calculating the new fees:

If the expiration date is in the current calendar year:

Example 1 - (for Reg. Renewed after 6/30/98)

- | | | | | | | | | | | | | | | | | |
|--|---|--|---------------|--|---------------|-----------------|---------|-------|-----------|--|-------------|--------------------------|--|---------|------------------|--|
| 1. Find the expiration day on the Julian calendar to determine the number of days elapsed. | Date current reg. expires: 10/22/2002 = 295 elapsed | | | | | | | | | | | | | | | |
| 2. Find the transaction day (date temp. reg. was issued) on the Julian calendar to determine the number of days elapsed. | Date temp. was issued: 8/12/2002 = 224 days elapsed | | | | | | | | | | | | | | | |
| 3. a. Subtract transaction days from expiration days. | 295 - 224 = 71 | | | | | | | | | | | | | | | |
| b. Add one to the result to include the transaction day | 71 + 1 = 72 | | | | | | | | | | | | | | | |
| 4. On the fee tables, find the <u>annual</u> reg. fee (based on vehicle weight) for the old vehicle. Subtract that amount from the <u>annual</u> fee for the new vehicle. If the expiration date is in the next calendar year, and there is LESS than one year left on the reg:

Example 2 - (for Reg. Renewed after 07/01/98)

- | | |
|--|--|
| 1. Find the expiration day on the Julian calendar to determine the number of days elapsed. | Date current reg. expires: 10/22/2002 = 295 elapsed |
| 2. Find the transaction day (date temp. reg. was issued) on the Julian calendar to determine the number of days <u>remaining</u> in the calendar year. | Date temp. was issued: 11/01/2001 = 60 days remaining |
| 3. a. ADD transaction days to expiration days | 295 + 60 = 355 |
| b. Add one to the result to include the transaction day | 355 + 1 = 356 |
| 4. On the fee tables, find the <u>annual</u> reg. fee (based on vehicle weight) for the old vehicle. Subtract that amount from the <u>annual</u> fee for the new vehicle. Remember, if the new vehicle weight is less or equal to the old vehicle weight, there is no proration fee. | New vehicle weight/Annual* Reg. Fee 3150 lbs.= \$20.00
Old vehicle weight/Annual* Reg. Fee 2150 lbs.= <u>-13.50</u>
Difference \$ 6.50 |
| 5. a. Multiply the difference in the annual fees (Step #4) by the number of days left on the old registration (Step #3a & 3b). | Proration Fee <u>x 356</u>
\$2314.00 |
| b. Divide the result by 366 (for leap year). | <u>/ 366</u>
\$ 6.322 |
| c. Round to the nearest quarter. | Round to: \$ 6.25 |
| 6. Add the \$6.25 proration fee to other fees related to the transaction. | \$ 6.25 Proration fee
10.00 Transaction fee
50.00 Title fee
<u>5.00</u> Lien fee (if applicable)
\$71.25 TOTAL ANNUAL FEE |

*The Passenger Registration Fee Chart shows the fee for two-year registrations. Divide that fee by 2 to get the annual fee.

If the expiration date is in the next calendar year, and there is MORE than one year left on the reg:

1. Compute the proration fee for the first year as you would if the registration expired in the current year (EXAMPLE #1).
2. ADD the proration fee (Step #5C) and the difference in the registration fees (Step #2) to any other fees related to the transaction.

EXAMPLE: Proration Fee (from Example #1, step 5c) \$ 1.25

New Weight: 3150 =	\$ 20.00 Annual Fee

A.6 VEHICLE USE TAX

You **must** collect the vehicle use tax on all passenger vehicles, and on all commercial vehicles with a maximum gross weight (MGW) of 10,000 pounds or less, for registrants residing in Richmond, Kings, New York, Bronx and Queens counties.

You **must** collect the vehicle use tax on all passenger vehicles and on all commercial vehicles, regardless of weight, for registrants residing in Tompkins, Westchester, Nassau, Niagara and Suffolk counties, if the transaction to be processed is an original or renewal. (*Beginning July 1, 2002, DMV will begin collecting a vehicle use tax on all original registration transactions for Niagara County residents who are subject to the tax.)

1. Use the "Definitions - Passenger and Commercial Classes" (pages 34-35) chart to determine whether the registration class involved is defined as "Passenger" or "Commercial".
2. Use the Vehicle Use Tax information on the MV-202 and MV-202C (pages 38-39 and 42-43) to determine the amount of the fee. The fees listed are based on a one year registration. The fees should be doubled for a two-year registration.

New York State Department of Motor Vehicles

**INSPECTION REQUIREMENTS
FOR CARRIERS TRANSPORTING PASSENGERS**

*Most vehicles that are registered by carriers to transport passengers must pass inspection before they will be registered by DMV. We will **not** issue a ten-day inspection extension for these vehicles.*

1. VEHICLES THAT MUST HAVE PROOF OF INSPECTION BEFORE BEING REGISTERED

- A. ANY VEHICLE CARRYING PASSENGERS THAT:
1. must be inspected by
 - a. the New York State Department of Transportation (NYS DOT) **OR**
 - b. the New York State Heavy Vehicle Inspection Program (NYS HV)
 2. and that operates under a certificate of inspection authorized by the federal Department of Transportation

A vehicle operating under authority of the U.S. Department of Transportation, which does not also have a NYS DOT certificate of commercial operating authority, may satisfy the NYS inspection requirement by providing proof of inspection from any periodic inspection program approved by the Federal Motor Carrier Safety Administration. For more information, see pages 3-4.

B. VEHICLES PREVIOUSLY JUNKED:

There are special registration and inspection requirements for vehicles previously junked. In addition to the other inspections, the vehicle must be cleared by the Auto Theft Prevention Program. For more information about requirements for junk vehicles, contact:

*NYS DMV
Auto Theft & Salvage Unit
Room 433
Albany NY 12228
(518) 474-0955*

2. AFFECTED REGISTRATION TRANSACTIONS

If a vehicle must pass inspection before it can be registered, proof of inspection in the registrant's name** is required to:

1. REGISTER a vehicle for the first time
2. RENEW a vehicle registration
3. TRANSFER PLATES to a different vehicle
4. CHANGE a registration because of a change in ownership, partnership, vehicle year, vehicle identification number, or registration class. (Proof of inspection is not required to correct an error on a registration.)

** Note for LONG-TERM LESSEES: anyone registering a vehicle, who has the use and possession of the vehicle, under a lease or otherwise, for more than 30 days, must have proof of inspection in his or her name.

3. INSPECTION REQUIREMENTS

All vehicles covered by this requirement must pass a safety inspection, and all vehicles that are not exempt must pass an emissions inspection. If required, the emissions inspection is conducted at the same time as the safety inspection. Vehicles registered in Bronx, Kings, Nassau, New York, Queens, Richmond, Rockland, Suffolk (except Fisher's Island) and Westchester counties must pass a High-Enhanced Emissions test or a Diesel Emissions test as required.

The person in whose name the vehicle is registered is responsible for meeting these requirements. All inspections (except NYS DOT inspection) must be done annually. The NYS DOT inspection is required every 6 months.

4. VEHICLES EXEMPT FROM PROVIDING PROOF OF INSPECTION AT TIME OF REGISTRATION

Vehicles that must be inspected by NYS DOT, buses inspected by the NYS Heavy Vehicle Program (NYS HV), or vehicles subject to operating authority are required to have proof of inspection before registration. If a vehicle must have the DMV safety and emissions inspection, then proof is not required at the time of registration; at the customer's request, a Motor Vehicles office may issue a ten-day inspection extension certificate for these vehicles.

Following are some samples of vehicles for which proof of inspection is not required before registration:

- a vehicle owned by the registrant for his or her personal use, that is also used to transport only his or her own child under age 21, for compensation, to school and school-type activities
- ambulances
- hearses
- a vehicle with historical or vintage license plates
- a vehicle which transports passengers that is owned and operated by a municipality or public authority. However, if the municipality grants an operating franchise to a vendor to provide transportation within that municipality, buses operated by that vendor must be inspected by NYS DOT
- any vehicle with seating capacity for 14 or fewer passengers, not including the driver, IF A DETERMINATION HAS BEEN MADE THAT THE VEHICLE DOES NOT REQUIRE INSPECTION BY NYS DOT
- a vehicle which has been exempted by letter from NYS DOT and is not required to be inspected by the New York State Heavy Vehicle Inspection Program.

5. VEHICLES REQUIRING NYS DOT INSPECTION

The following are general rules. If you have any question about whether a vehicle requires NYS DOT inspection, contact any NYS DOT office on page 3.

A. Vehicles Used To Transport Passengers Under Age 21, to and from the following, require NYS DOT inspection:

1. places of academic or vocational instruction;
2. places of religious services and/or religious instruction;
3. day camps and/or day-care centers;
4. places for the care or training of persons who have a physical or mental disability.

DOT inspection **IS REQUIRED** for vehicles that are registered by organizations that meet the definition of “School” in Section 1.03(11) of the NYS Mental Hygiene Law (*a residential facility for the mentally retarded and developmentally disabled, or a facility for the treatment, training or education of the mentally retarded and developmentally disabled, under the jurisdiction of, or certificated by, the commissioner of mental retardation and developmental disabilities*) if passengers under the age of 21 are transported to or from school programs approved by the State Education Department.

- NOTE: THE RULES IN “A” ABOVE CAN APPLY TO ANY VEHICLE REGARDLESS OF

- type
- ownership
- whether compensation is received

B. OTHER VEHICLES TRANSPORTING PASSENGERS

NYS DOT inspection is required for all vehicles that transport passengers under a certificate or permit issued by:

- U.S. Department of Transportation (US DOT)
- NYS DOT

C. VEHICLES REQUIRING OPERATING AUTHORITY

Many individuals, organizations and enterprises transporting passengers for hire (for example, large commercial bus carriers) must have NYS DOT authority (commercial operating authority) to be in business. If commercial operating authority is required, any vehicle being used to provide that transportation service must have NYS DOT inspection.

Some types of for-hire transportation services for passengers do not require operating authority. However, a vehicle used in such exempt operations (see list below) still has to have a NYS DOT inspection if such vehicle is used to transport passengers under age 21, as described in “A.” above.

TRANSPORTATION SERVICES EXEMPT FROM OPERATING AUTHORITY:

- casual transportation not available to the public, and provided by a not-for-profit enterprise
- casual transportation by an individual or business not engaged in transportation as a regular occupation or business
- non-profit car pools
- sight-seeing services
- ambulances under the jurisdiction of the NYS Department of Health
- transportation provided directly by a municipality or public authority*
- transportation for the exclusive use of employees provided under contract with an employer
- taxi or livery service in vehicles having a gross vehicle weight rating of 6,000 lbs. and under
- transportation to and from schools and school-type activities

* such vehicles are exempt from inspection by the authority of DMV regulation.

6. PROOF OF NYS DOT INSPECTION

You must provide an MC300 (Vehicle Inspection Report), issued by NYS DOT, showing that the vehicle has passed inspection some time in the six months before the vehicle is registered.

- ◆ The report must be issued to the registrant. You must provide the original document whether you are registering the vehicle in-person or by mail; we cannot accept a copy of this report. DMV will keep this report.
- ◆ Registrants of vehicles not regulated by NYS DOT must provide the original letter from the Supervising DOT Motor Vehicle Inspector.

7. ARRANGING FOR NYS DOT INSPECTION

To arrange an inspection, contact the nearest DOT regional office (see below*). If required, you must have NYS DOT commercial operating authority before your vehicle inspection will be scheduled. DOT does not have vehicle inspection sites, so in most cases, inspectors will come to your place of business. If you do not have the appropriate inspection facilities, the inspector will tell you what to do. There is no fee for this inspection.

8. VEHICLES REQUIRING NYS HEAVY VEHICLE INSPECTION

Vehicles that are used to carry passengers, that must be inspected under the Heavy Vehicle Program, are vehicles that carry 15 or more passengers, not including the driver. Vehicles excluded from this requirement are:

- A. vehicles requiring inspection by NYS DOT (see page 2)
- B. transit system vehicles owned and operated by a public authority or municipality.

9. HEAVY VEHICLE INSPECTION STATIONS

These inspection sites are privately owned, and are licensed by DMV's Division of Vehicle Safety. Each inspection station is required to display a sign showing its facility number, and to post the fee it charges for the inspection.

Some heavy vehicle inspection stations are listed in the yellow pages of phone directories under "Trucks, Repair and Service". Also, heavy vehicle inspection stations may be located quickly and easily by using the facility look-up feature on the DMV website at <http://dmv.ny.gov/faclookup/default.html>

10. PROOFS REQUIRED UNDER THE NYS HEAVY VEHICLE INSPECTION PROGRAM

- A. A Retail Certificate of Sale (MV-50) with the inspection date, facility number, inspection certificate number and expiration date entered on the form. This form is issued by a vehicle dealer who sells or transfers a vehicle. **OR**
- B. One copy of a statement on inspection station letterhead or billhead, with the following information:
 - name and address of registrant
 - vehicle information, including vehicle identification number, year, make, model and color
 - statement: "Heavy Vehicle Safety Inspection Certificate # _____ expiring _____ issued." and, if required, "Emissions Inspection Certificate # _____, expiring _____ issued."

The inspector will provide the inspection certificate number(s) and expiration date(s).

 - inspector's signature and certification number
 - date of inspection
 - inspection station facility number

DMV will keep this copy.

11. USING PROOF OF INSPECTION FROM ANOTHER STATE OR PROVINCE

Generally, you need proof of inspection by either the NYS DOT or the NYS Heavy Vehicle Program. However, there are three situations in which you can use proof of inspection from an out-of-state program:

- A. apportioned vehicles may use proof of inspection from any approved out-of-state program or from NYS DOT. It will be valid until the expiration date on the out-of-state certificate, as long as the vehicle remains registered or apportioned in that state or province, as well as in NYS.
- B. a vehicle carrying passengers and operating under authority of the U.S. Department of Transportation, which does not have NYS DOT commercial operating authority, may use proof of inspection from any approved program.
- C. if you have just become a resident of New York State, we will accept a certificate of inspection issued by another state or province **ONLY** for a vehicle that otherwise would require inspection in the NYS Heavy Vehicle Inspection program (*see Section 8 above*). It will be valid until the expiration date of the out-of-state certificate, or for one year from the date your New York registration begins, **whichever comes sooner**.

If your vehicle meets the requirements for inspection by NYS DOT, and the out-of-state inspection certification DOES NOT meet the requirements described in "A" and "B" above, we cannot accept the proof of inspection by an out-of-state program. Section 7 tells you how to arrange for NYS DOT inspection.

12. APPROVED OUT-OF-STATE PROGRAMS

To meet NYS DOT requirements, an out-of-state inspection must be conducted by a safety inspection program approved by the Federal Motor Carrier Safety Administration (FMCSA).

The following states and provinces/territories of Canada have approved programs:

States

Alabama	District of Columbia	Maine	New Hampshire	Pennsylvania	Vermont
Arkansas	Hawaii	Maryland	New Jersey	Rhode Island	Virginia
California	Illinois	Michigan	Ohio	Texas	West Virginia
Connecticut	Louisiana	Minnesota	Oklahoma	Utah	Wisconsin

Canadian Provinces and Territories:

Alberta	Manitoba	Newfoundland	Ontario	Quebec	Yukon Territory
British Columbia	New Brunswick	Nova Scotia	Prince Edward Island	Saskatchewan	

13. WHAT PROOFS OF OUT-OF-STATE INSPECTION DO I NEED?

You may use a document issued by a periodic inspection program approved by the Federal Motor Carrier Safety Administration (FMCSA). The documents issued by approved programs vary (for example, this form could be a report issued by a federal or state inspector, or it could also be from a mechanic who works for the company that is certified to perform the inspections). If the only document issued is a vehicle sticker, DMV will accept the registrant’s certification of inspection.

14. TRANSPORTING A VEHICLE TO AN INSPECTION SITE

If your vehicle does not already have a currently valid registration issued by New York State, you may transport your vehicle with an in-transit permit. In-transit permits are available at any Motor Vehicles office. You must show proof of ownership, identity and insurance to qualify. There is a fee for this permit.

Another option is available if your vehicle requires inspection by NYS DOT. You may obtain a special version of the in-transit permit, called the Temporary Operating Permit (TE265), directly from NYS DOT inspection staff. To qualify, you must show proof of ownership, identity and insurance. The permit fee will be collected by Motor Vehicles staff when the vehicle is registered. For more information on the Temporary Operating Permit, contact the nearest DOT regional office (see page 3), or ask your DOT inspector.

Vehicles previously junked need a special permit. See Section 17 below.

15. TO REGISTER

With one exception, you may register a vehicle at any Motor Vehicles office. Registrants of a vehicle with taxi plates, whose address is in one of the five boroughs of New York City, must go to the New York Motor Vehicles office at 11 Greenwich Street in Manhattan.

16. IF THE VEHICLE FAILS INSPECTION

Each inspection program allows time to have necessary repairs done and to have a vehicle re-inspected if it fails the first inspection. If a vehicle fails inspection and does not pass re-inspection, or if it is not brought in for reinspection:

- DMV cannot register the vehicle, and
- the vehicle must not be operated on the road.

Vehicles being transported to have repairs made so it can pass re-inspection, or to travel to inspection sites, must have some temporary operating authority - a DMV in-transit permit, a DOT out-of-service permit, or a DOT Temporary Operating Permit (DOT in-transit permit). The vehicle may not be used to carry passengers for hire until it passes inspection and is registered.

Vehicles requiring DOT inspection must pass inspection every 6 months. **IF A VEHICLE FAILS THIS INTERIM INSPECTION, OR IS NOT BROUGHT IN FOR THE SCHEDULED INSPECTION:**

- it must not be operated on the road
- under no circumstances may it be used to transport passengers for-hire
- the license plates must be turned in to a Motor Vehicles office.

C.5 ACCEPTABLE PROOFS

All proofs of name/date of birth, proof of inspection and insurance documents must have the same name as the name on the registration application.

C.5.1 OWNERSHIP

The following documents are examples of acceptable proofs of ownership:

- an Out-of-state Title
- Manufacturer's Certificate of Origin
- Manufacturer's Statement of Origin (for vehicles that are not titled)
- Transferable Registration
- New York State Certificate of Title
- Garageman's Lien*
- Affidavit of Repossession

*Effective 4/1/98, all 1973 and newer model year vehicles purchased at a public auction with a garageman's lien (MV-901A and MV-901B) as proof of ownership, must be titled before they can be registered.

C.5.2 REQUIRED PROOFS FOR IDENTIFICATION

See form ID-82, Proofs of Identity for Registration and Title, on the following two pages. This information is also available to the public on the DMV web site www.dmv.ny.gov.

**PROOFS OF IDENTITY
FOR REGISTRATION AND TITLE**

This form is also available at www.dmv.ny.gov

GENERAL REQUIREMENTS*

When you apply for a registration or title, you must provide proof of your date of birth and proof of your name. A NYS photo driver license, learner permit, or non-driver ID card that is current or that is not expired for more than 2 years meets the proof of name **and** date of birth requirements.

- If you send a person to DMV to submit your application for a registration or title, that person **must** provide his or her original NYS photo license, permit or ID card **and** a photocopy of your NYS photo license, permit, or ID card.
- If you do not have a NYS photo driver license, learner permit, or non-driver ID card that is current or that is not expired for more than 2 years, you must submit documents from the list in the table on pages 1 and 2. The documents you submit to prove your name must amount to 6 points.
 - Your signature **must** be on at least one of the documents that you show for proof.
 - You must provide the **original** documents or documents that are **certified** by the issuing agency.
 - DMV will **not** accept more than one document of the same type of proof. For example, 3 major credit cards count as one credit card.
 - DMV will **not** accept documents with any alterations or erasures. DMV will confiscate documents that appear to be fraudulent so that the documents can be reviewed by DMV’s Investigations Unit. If you submit a fraudulent document, you may be subject to criminal prosecution.

IMPORTANT: Making a false statement in an application, or in any proof or statement in conjunction with the application, or deceiving or substituting, or causing another person to deceive or substitute in connection with such application, is punishable as a misdemeanor under Section 392 of the Vehicle and Traffic Law for vehicle registration applicants, and may result in the revocation or suspension of your license or registration.

* **These requirements do not apply to interstate in-transit permits and to snowmobiles that are registered in another state** and will be registered for use in NYS. To apply for an **interstate in-transit permit**, a current out-of-state driver license is the only proof of identity that you need. If you have a **snowmobile that is registered in another state** and will be registered for use in NYS, the out-of-state snowmobile registration is the only proof of identity that you need.

C.5.4 PROOF OF INSURANCE: NEW YORK STATE IN-TRANSIT PERMITS

I. New York State Residents Registering Out of State

Resident status is determined by the address on the proof of name presented by the buyer.

Proof of insurance provided by NYS residents must be issued by an insurance company licensed by the NYS Department of Insurance and authorized by the NYS Department of Motor Vehicles to conduct business in NYS. The buyer must present one of the proofs of insurance described below:

A. Coverage provided by an authorized New York State insurance company:

- ♦ a 2D bar-coded insurance ID Card; FS-20 or FS-21
- ♦ the preparation date must be within sixty days (including the preparation date) before the date of the In-transit permit application. See Section C.5.5 for examples of acceptable insurance ID cards.

B. Coverage provided by the New York State Automobile Plan:

- ♦ a 2D bar-coded FS-75 Temporary Identification Card.
- ♦ the "In-Transit Permit" box must be checked.
- ♦ the card must be presented to DMV within 7 days of the card's preparation date (including the preparation date).
- ♦ one copy of the In-Transit Cancellation Authorization Form, issued by the agent/broker who prepared the FS-75. A sample of the form is shown on page 90.

II. Out-of-State Residents

Resident status is determined by the address on the proof of name presented by the buyer.

- A. If coverage has been purchased from an authorized NYS Insurance company, refer to I-A, B, or C.
- B. If coverage has been purchased from an out-of-state insurance company, the buyer must provide a letter or binder from an out-of-state agent/broker or insurance company, on letterhead, with the following information:
 - name and address of the agent or broker.
 - name and address of the insurance company.
 - effective date and expiration date of the policy.
 - name and address of the insured.
 - vehicle information - VIN, year and make
- C. A facsimile copy of an insurance binder (usually 8 1/2" x 11") is also acceptable as proof of insurance. This form must have:
 - "Insurance Binder" printed at the top.
 - name and address of the agent or broker.
 - name and address of the insurance company.
 - effective date and expiration date of the policy.
 - name and address of the insured.
 - vehicle information - VIN, year and make

C.5.5 PROOF OF INSURANCE: REGISTRATION

The registrant must provide proof of insurance in the form of a valid 2D bar-coded New York State Insurance Identification Card (FS-20, FS-21 or FS-75) for the vehicle being purchased. (See examples on the following pages.)

- The effective date on the insurance card must be before, or the same as, the date you issue the Temporary Certificate of Registration (MV-TCR). If the effective date of the insurance is after the date the MV-TCR was issued, DMV will reject the paperwork and the customer must obtain a new insurance card.
- The registrant's name must be exactly the same as the name on the MV-82 and the proof of identification sent with the application. If there is a discrepancy in the name on the insurance card, the entire application will be returned to the dealer. DMV will not issue a second temporary registration if there are any problems with the insurance card.
- If the motor vehicle is a replacement vehicle, the ID card must have the notation "REPLACEMENT VEHICLE". A replacement vehicle is a motor vehicle that replaces a vehicle insured on an in force policy on the same day that the replaced vehicle is deleted from the policy. A re-registration (vehicle change) transaction using the replaced vehicle's current registration must be processed. DO NOT process an original registration transaction.

C.7 COMMON DEALER ERRORS IN ISSUING REGISTRATIONS

Following are the five most common errors resulting in rejection of applications and delays in issuing your customer's permanent registration.

1. **PROOF OF IDENTITY NOT PROVIDED FOR REGISTRANT** - Proof of date of birth and signature must be provided for every registration transaction, including reregistrations. The proof of identity must add up to 6 points, and the registrant's name must exactly match the name on the insurance card (see Sections C.5-C.5.3).
2. **MV-50 INCOMPLETE** - Please double-check your MV-50s to insure that all data is entered correctly. Remember, any change or erasure voids the MV-50, and a new one must be completed. When issuing a replacement MV-50, it must be clearly marked, "Replaces MV-50 # (# of void MV-50)".
3. **INSURANCE NOT IN EFFECT WHEN PLATES WERE ISSUED** - The insurance coverage must be in effect on the same day the MV-50TCR, Temporary Certificate of Registration, and plates were issued, OR before that date. If the effective date of insurance coverage is after the plates and temporary registration were issued, you must get a corrected insurance card. We recommend that you leave the "date issued" blank on the MV-82 until the customer has given you the insurance card.
4. **MV-82 INCOMPLETE - DEALER SECTION** - You must provide the plate number, registration class, date the temporary registration was issued, and the facility identification number for every original registration transaction you send to DMV. You must also provide the "date issued" for every transfer of plate transaction.

C.8 FREQUENT AUDIT ISSUES

- Insufficient control over license plate and In-Transit Permit inventories
- Failure to report lost, stolen, or voided license plates or In-Transit Permits
- Failure to obtain all required information from customers to fully document a registration or In-Transit Permit issuance. DMV must reject incomplete applications. Reasons for rejection include:
 - ◆ Altered document
 - ◆ Inconsistent names between documents. For example: Mike/Michael, Bob/Robert, or married and maiden name
 - ◆ Lien release not valid or not included with documentation submitted
 - ◆ Insurance not in effect at the date of sale
 - ◆ Inspection date not within 30 days of the date of sale
 - ◆ Unsigned document
 - ◆ Document not completely filled out
 - ◆ Incomplete continuity of ownership
 - ◆ Insufficient points of ID
 - ◆ Invalid proof of date of birth
 - ◆ Inconsistent odometer readings

C.9 REGISTRATION/IN-TRANSIT PERMIT ISSUANCE QUESTIONS AND ANSWERS

- Q) What should I do if I open a box of plates and find one or both plates of a set missing?
- A) The first thing you should do is check the rest of the plates in that box. Sometimes plates are just out of order. If you do not find the missing plate(s), send the remaining plate to the Dealer Plate Issuance Unit, along with a letter on the dealer's letterhead explaining the problem. When we receive the letter and plate, we will send you a replacement set at no charge.
- Q) Should we open the box(es) of plates when we receive them, to inventory them?
- A) No. Check the plate numbers stamped on the outside of the box with the confirmation letter we send you. If the numbers do not match, call the Dealer Plate Issuance Unit to confirm which plates you should have received.
- Q) I just noticed that we are getting low on plates, and don't have any plate order forms. What can we do?
- A) Call the Dealer Plate Issuance Unit (518- 473-3565) and they will mail or fax forms to you. You can photocopy blank forms for future use. Be sure to photocopy and complete both sides of the form(s), if applicable.
- Q) I opened a box of plates, and there are three plates with the same number. What should I do?
- (A) Check the rest of the box and make sure there are no other problems. Send the extra plate, along with a letter on the dealer's letterhead, to the Dealer Plate Issuance Unit, stating that you received an extra plate. The other two plates are valid, and can be issued to a customer.
- Q) If I go out of business, what must I do with the remaining plates?
- A) Prepare a letter to the Dealer Plate Issuance Unit, on your company letterhead, stating that you have gone out of business, and list all the remaining plates you have. Send this letter and the remaining plates to the Dealer Plate Issuance Unit. When we receive the plates and letter, we will review your records, send you a receipt for all plates received, and initiate the refund process.

- Q) If I own more than one dealership in the area, and run out of plates at one of the locations, can I transfer plates from one dealership to another?
- A) **Absolutely not!** Plates are assigned by facility number and cannot be exchanged or borrowed from another dealership. If it is an emergency, you can order by phone, arranging for a courier to pick up the plates. The courier must have written permission (on dealer letterhead, signed by the dealer or the dealer's authorized representative), proof of ID (photo ID), an original, signed order form and a check.
- Q) If our facility number changes, what should we do?
- A) You must return all unused plates to the Dealer Plate Issuance Unit, along with a letter of explanation. The plates are not transferable and must be returned. We will check our records to insure that all unused plates are accounted for. If our records agree with the information you provide, you are entitled to a refund. You must then rejoin the program under your new facility number.
- Q) A buyer, to whom my dealership has issued an interstate In-transit Permit, returns and wants to register the vehicle in New York. What should I do?
- A) Refer the buyer to a Motor Vehicles office. Once you have issued an interstate In-transit Permit, you cannot issue registration plates for that buyer and vehicle.
- Q) If a buyer wants an In-transit Permit to register the vehicle elsewhere in New York, can I issue a permit?
- A) No. You may issue a permit (from stock purchased through the Dealer Plate Issuance Program) only to a buyer who intends to register the vehicle outside of New York State. If you want to act as the agent of the buyer in obtaining an intra-state ITP, you must obtain an ITP from a Motor Vehicles office.
- Q) A buyer to whom I've issued an ITP returns 29 days later and requests a second ITP because he has been out of the country because of an emergency. Can I issue another ITP?
- A) No. Refer the buyer to a Motor Vehicles office. Only one ITP is issued to a buyer for a vehicle. Under rare and extenuating circumstances, a Motor Vehicles supervisor may approve a second ITP. Under no circumstances should you issue more than one permit.
- Q) The financing was not approved for a vehicle for which I issued a temporary registration/ITP, but the vehicle has left the premises. Can I cancel the deal?
- A) Contact the Central Dealer Unit for further instructions.

Note: When using an overnight mail service, the overnight delivery will be made to the Motor Vehicles mail room, not directly to the Dealer Plate Issuance Unit. Please allow extra time for your package to reach the Dealer Plate Issuance Unit.

C.10 EXCERPTS FROM THE REGULATIONS OF THE COMMISSIONER OF MOTOR VEHICLES.

TEMPORARY CERTIFICATES AND DEALER PLATES

SECTION 78.20

Issuance of temporary certificates of registration -- Vehicle and Traffic Law Section 420. (a) A retail dealer must issue a temporary certificate of registration, form MV-TCR, to a customer who has another vehicle registered or who had another vehicle previously registered, who purchases a vehicle from the dealer, provided that the registration of such vehicle is eligible for transfer to the purchased vehicle and the number plates are appropriate. Form MV-TCR is valid for a period of forty-five days from date of issuance, or until the last day on which the registration may be used, whichever occurs first. A wholesale dealer may not issue or obtain from the Department a temporary certificate of registration. (Added 4/1/93)

- (b) A retail dealer must enter on the temporary certificate the registration number of the plate to be transferred, a description of the newly acquired vehicle, and the certificate must be appropriately completed by the dealer and purchaser. The original certificate shall be affixed to the windshield in the position designated for the windshield sticker if the motor vehicle has a windshield; if not, the certificate shall be delivered to the registrant who must carry it while operating the vehicle. Such temporary certificate must be issued at the time of the delivery of the vehicle. (Amended 4/1/93)

- (c) Under no circumstances may dealers issue temporary certificates:
 - (1) when lending a dealer plate to a customer;
 - (2) where the customer has plates of another state;
 - (3) when a vehicle is required to be inspected before it can be operated on the public highway and the vehicle does not bear a valid inspection sticker;
 - (4) if a bona fide sale has not been made; or
 - (5) where the certificate of sale has been checked "salvage." (Amended 4/1/93)

- (d) A dealer may not issue more than one temporary certificate of registration (form MV-TCR) to the same person for the same vehicle. If it becomes necessary to issue a duplicate MV-50, a new MV-TCR may be issued with the same expiration date as the original. (Amended 4/1/93)

- (e) No dealer shall transfer a temporary certificate of registration (form MV-TCR) to another dealer or in blank to any person, except that unused certificates still attached to their MV-50 forms must be returned to the Department of Motor Vehicles. (Amended 4/1/93)

SECTION 78.23

Dealer-issued temporary registration -- Vehicle and Traffic Law Section 420-a. (a) Eligibility of dealers. Any dealer who has been a registered retail dealer in New York State or any other state for at least one year may make application to the Commissioner on a form provided by the Commissioner for authorization to issue temporary registrations pursuant to Section 420-a of the Vehicle and Traffic Law. The Commissioner may waive the one year waiting period for a dealer adding another dealership if the person or persons operating the business have a history of satisfactory participation in the dealer issued plate program within the last five years, or for a newly licensed dealer who sells new vehicles. (Amended 6/25/2014)

- (b) Distribution of registration number plates to authorized dealers.
- (1) Upon approval of an application submitted pursuant to subdivision (a) of this section, a dealer may request a supply of registration number plates on a form provided by the Commissioner. Such requests must be addressed to the Commissioner at the location designated on the request form and each such request must be accompanied by a fee of \$2.00 for each set of registration number plates requested. (Added 4/1/84)
 - (2) The Commissioner will prescribe the minimum and maximum number of registration number plates which can be requested by a dealer at any one time and the time at which a dealer may submit a request for additional supplies of registration number plates. The number of registration number plates which will be issued to a dealer will be based upon the number of such plates which can reasonably be anticipated to be issued by the dealer during a specified period of time. Number plates will only be issued to a dealer by boxes of plates. (Added 4/1/84)
 - (3) Registration number plates will be delivered by the department to the place of business of the dealer. Upon delivery, the dealer must immediately forward to the Commissioner a receipt for the plates delivered. (Added 4/1/84)
 - (4) Boxes of registration number plates should not be opened until the box is to be used. At that time the dealer must examine all registration number plates in the box being opened. The dealer must immediately notify the Commissioner of any missing or mutilated plates or sets of plates in that box. Notification should be on the letterhead of the dealer and should be sent to the Commissioner at the location given on the request form for such plates. Mutilated plates and the remaining plate of an incomplete set must be returned to the Commissioner with the letter. (Added 4/1/84)
- (c) Temporary certificates of registration. (1) A retail dealer shall issue a form MV-TCR as the temporary certificate of registration issued pursuant to Section 420-a of the Vehicle and Traffic Law and this section. (Amended 4/1/93)
- (2) The MV-TCR shall be completed in the same manner as it would be for issuance pursuant to Section 420 of the Vehicle and Traffic Law and Section 78.20 of these regulations. (Amended 4/1/93)
- (d) Issuance of temporary registrations by dealers. (1) A dealer may only issue a temporary registration pursuant to this section: (i) to a retail customer to whom a properly inspected new or certified used vehicle has been sold or transferred by such dealer, (ii) for a vehicle which is eligible for registration with a standard series plate (passenger vehicle), a motorcycle plate, a commercial series plate or a trailer plate (tractor plates and special purpose commercial plates are not included), and (iii) when a certificate of sale (form MV-50) with a matching serial number has been completed. (Amended 4/1/93)
- (2) Before issuing such a registration, the dealer must have physical possession of all documents which are necessary in order to have a registration and certificate of title issued by the department for the vehicle. (Added 4/1/84)
 - (3) The dealer shall exhaust the supply of plates in a series previously issued to him before issuing plates from a supply of plates in that series delivered later. He shall also issue plates within a series within any one delivery made to him in alphanumeric order. (Amended 3/1/85)

- (4) The dealer shall place the appropriate registration number plates on the vehicle in accordance with Section 402 or Section 411 of the Vehicle and Traffic Law. He shall place the temporary certificate of registration on the inside of the windshield in the lower left-hand corner with the front of the certificate facing out if the motor vehicle has a windshield and if it does not have a windshield, he shall delivery it to the registrant so that it may be produced to a police officer upon request. (Amended 3/1/85)
- (e) Submission of registration and title application. (1) Within 5 calendar days of the date of issuance of the temporary registration, the issuing dealer must submit the completed application for registration and title (including the number of the registration plate issued by the dealer), together with all necessary documents and fees to an issuing office to the department or to a county clerk acting as agent of the Commissioner. If submitted to a department issuing office, the completed application must be sent by mail. (Added 4/1/84)
- (2) The application (form MV-82) and the certificate of sale (form MV-50) shall be completed in the normal manner except that on the MV-50 the dealer shall put the notation "D.T." and the number of the registration plate he has issued in the space titled "plate number of purchaser" and on the application for registration (form MV-82) the dealer shall enter all information called for in section entitled "Only To Be Completed by a Licensed New York State Dealer or DMV Staff" and sign the certification. (Amended 10/1/89)
- (3) If there are any errors in the application for registration, documents or fees submitted, the submitting dealer will be notified and the dealer shall submit corrected material without unnecessary delay. (Added 4/1/84)
- (f) Issuance of registration. Upon receipt of proper application documentation and fee the department issuing office will mail, or the county clerk will mail or deliver the registration certificate to the registrant. (Added 4/1/84)
- (g) Records. (1) A dealer who issues a temporary registration pursuant to this section must keep, at the dealer's place of business, a record of all such registrations issued by him both by plate number and by name of registrant. Such record must contain all of the information with respect to the registrant and the vehicle which is contained on the application for registration, as well as the date the temporary registration was issued. Such records must be recorded on a daily basis and such information must be available to police enforcement agencies at all times, and to agents of the Commissioner during normal business hours. (Added 4/1/84)
- (2) The dealer shall also keep a record of the date the application for registration was submitted to the Commissioner. Such record must be entered by the close of the succeeding business day and must be available to police enforcement agencies and to agents of the Commissioner during reasonable business hours. (Added 4/1/84)
- (3) If any registration number plates are stolen or lost by the dealer, the dealer shall notify the local police agency and the Commissioner of such theft or loss. Notification to the Commissioner shall be on the letterhead of the dealer and shall be sent to the location on the request form for such plates. (Added 4/1/84)
- (h) Miscellaneous. (1) A dealer may not make any charge for the issuance of a temporary registration pursuant to this section in addition to the charge permitted by subdivision (c) of Section 78.19 of these regulations. (Added 4/1/84)

- (2) A dealer may not issue a temporary registration pursuant to this section for any vehicle which is eligible for issuance of a temporary certificate of registration pursuant to Section 420 of the Vehicle and Traffic Law and Section 78.20 of these regulations. (Added 4/1/84)
- (3) Registration number plates issued to a dealer must be kept in a secure location with limited access, which when not being used, must be locked up. (Added 4/1/84)
- (4) Any violation of Section 420-a of the Vehicle and Traffic Law and of this section may result in a denial of approval to issue temporary registrations pursuant to such section and many also result in action being taken against the dealer registration. (Added 4/1/84)
- (5) No dealer shall transfer, lend or permit the use of registration number plates issued under this section to another dealer or any other person except as specifically permitted by this section. (Added 10/1/89).
