

New York State law requires drivers to use safety restraints when driving any motor vehicle that is required to be equipped with safety restraints. When a vehicle is operated by a driver who has a Class DJ learner permit, every passenger in the vehicle must use a safety restraint (a seat belt, a combination seat belt and shoulder harness, a child restraint seat).

If you have a learner permit, the following restrictions apply to you:

- ◆ You may not operate a vehicle unless a supervising driver is in the vehicle with you. The supervising driver must be age 21 or older and must have a valid license to operate the type of vehicle you are in. If the vehicle is a motorcycle or moped, only the supervising driver may ride on it with you. However, rather than ride on the motorcycle or moped with you, the supervising driver may provide “general supervision” by following you and staying within one-quarter mile of you, keeping you in sight at all times.
- ◆ You are not allowed to operate a vehicle that contains hazardous materials.
- ◆ You may not operate a vehicle in any area designated by DMV as a road test area, except when you take a road test.
- ◆ You may not drive a vehicle on the following roads:
 - ❖ Any street that is within a park in New York City
 - ❖ Any bridge or tunnel in New York City that is under the jurisdiction of the Triborough Bridge and Tunnel Authority
 - ❖ The following parkways in Westchester County:
 - Hutchinson River Pkwy. - Cross County Pkwy.
 - Saw Mill River Pkwy. - Taconic State Pkwy.

In addition to the restrictions listed above, the following restrictions apply to any person who has a Class DJ or Class MJ learner permit:

- ◆ No more than 1 passenger under the age of 21 who is not a family member is allowed in the vehicle. This does not apply if the supervising driver is a parent, guardian, driver education teacher or driving school instructor.
- ◆ No passenger is allowed to sit in the front seat, except for the supervising driver.
- ◆ If you drive in the 3 regions shown in the table below, you must follow the rules that are described for each region:

TO MAKE A ROAD TEST APPOINTMENT

You can schedule your road test at dmv.ny.gov/roadtest, or by calling the automated Road Test Scheduling System at **1-518-402-2100**. You will be asked to provide the 9-digit ID number on your learner permit or license, **and** the Course Completion Certification number on the certificate you received when you completed the 5-hour highway safety course or driver education course. If you are a commercial driver license applicant, you will be asked for the number that is on the receipt you were given when you paid the skills test fee.

NOTE TO ALL PERMIT HOLDERS WITH A CLASS DJ OR MJ LEARNER PERMIT: Before you take a road test, **you must have a minimum of 50 hours of supervised practice driving that includes at least 15 hours of driving after sunset**. You must bring to the road test a completed DMV form MV-262 (Certification of Supervised Driving) that has the signature of your parent or guardian. You can get the form at dmv.ny.gov or in any DMV office, or you can call a DMV Call Center and ask for the form.

NOTE TO ALL PERMIT HOLDERS WITH A COMMERCIAL LEARNER PERMIT (CLP): EFFECTIVE February 7, 2022, if you are applying for a CDL for the first time or adding a Hazmat, Passenger, or School Bus endorsement for the first time, you must complete entry-level driver training (ELDT) prior to taking a CDL road test. Hazmat ELDT is required prior to taking the Hazardous Materials knowledge test. The training provider must be registered on the FMCSA Training Provider Registry <https://tpr.fmcsa.dot.gov>. Go to ELDT-FAQ <https://dmv.ny.gov/commercial-drivers/entry-level-driver-training-faq> for more information about the ELDT requirement.
